

Your online health records

Easy
Read

Are you tired of searching through your **health records** to find important information?

With the **Care Information Exchange**, you can securely access your hospital health records online.

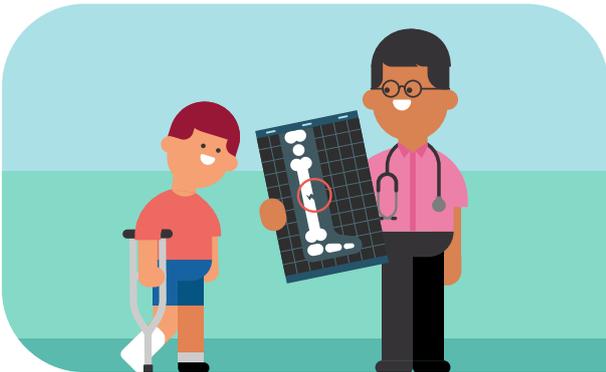

Adults, children and young people can access the Care Information Exchange on your **mobile or computer**.

Adults can also access through the **NHS App**.

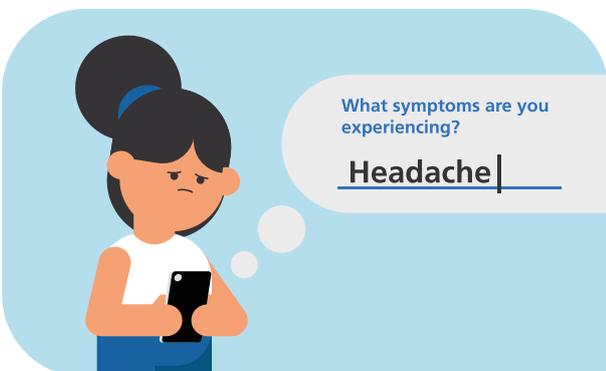

View your **blood test results**. You can also view your family members' results if you have their permission.

View **X-ray and scan reports**.

View letters, discharge summaries and appointments **all in one place**.

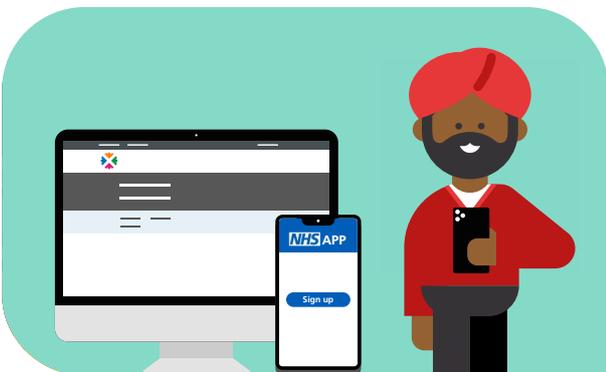

Complete **pre-clinic questionnaires**, or record your symptoms in a care plan.

Securely share your health records with your family and carers.

The Care Information Exchange provides you with **key details of your care in one place**. You can access it **anywhere, anytime**.

Adults, children and young people can **sign up** on the Care Information Exchange **website**. Adults can also sign up on the **NHS App**.

Scan the QR code, or enter the web address, to go to the Care Information Exchange website.
