

Ear, nose and throat (ENT) and ophthalmology clinics temporarily relocated

From late April to early summer 2016, outpatient appointments in the ear, nose and throat (ENT) and ophthalmology clinics have been relocated to a clinic on the ground floor.

This is to allow for works on the clinic, part of our outpatient improvement programme.

See the map below or speak to a member of staff for directions.

How to get to your ear nose and throat (ENT) and ophthalmology clinic during the refurbishment works:

Ground floor, Charing Cross Hospital
